Dear Mr Curtis

Driveway Resurfacing

It is not often that one feels the urge to write and say a **thank you** for a job well done.

The job included resetting a new manhole and cover after a skip lorry had demolished the original, inserting an open length of drain and cover to help the drainage problems of run-off water, removing the existing surface and laying new asphalt on the driveway.

This was all done in a very professional way, and the team work of the five of you when laying the tarmac was a joy to watch – even refusing a mug of tea until the job was complete !

If a friend asks for a recommendation, I will not hesitate in saying Roefield Driveways.

Yours sincerely

John Naylor-Smith
